In depth case study of Ghana/Tanzania-voucher comparison for Health Policy and Planning

Jayne Webster
Donald de Savigny

Continuous LLIN Distribution Systems Work Stream. 4th Meeting, Dec 9th 2011
In-depth case study of the voucher schemes in Ghana and Tanzania

Why?
• To document and share the complex histories and contexts
• To understand the elements of sustained integration of continuous delivery

How?
• By comparing the two histories from a systems perspective
• Document review, stakeholder meetings, in-depth interviews (Ghana)
Current status of continuous delivery strategies in Ghana and Tanzania

Ghana
• many delivery strategies used, often the first country to try new strategies
• None continuous delivery since late 2010

Tanzania
• voucher scheme in operation for >10 years

Consider the voucher scheme experiences within the context of other strategies for delivery of nets/ITNs within each country
## Trends in coverage from Demographic and Health Surveys

Progress on in-depth case studies in Ghana and Tanzania

- Meeting with Ghana stakeholders in July 2011

- Timeline of voucher and non-voucher ITN delivery strategy events in Ghana constructed and agreed as a factual account

- Outline of the paper for HPP developed December 2011

- First draft of manuscript by the end of December 2011

- Meeting with Tanzania stakeholders January 2012

- HPP supplement publication 3rd quarter 2012
