Panelists:

Hon. Sylvia Masebo

Minister of Health, Zambia

Edugie Abebe, Nigeria

Julius Ombogo, CFW Shops, Kenya

Gikapa a Gudijiga, Sanru, DRC

Rapporteur:

David Kim, WEF

Strengthen community-based delivery systems

- Strengthen community based delivery systems, including training, monitoring and supervision of local workers and systems

Capacity Development

- Local capacity needs to be developed/strengthened in the following areas:
 - Consumer protection
 - Quality Assurance
 - Market surveillance for counterfeits
 - Local manufacture for new essential commodities
 - Supply Chain Management

More effective use of analysis

- Countries and programmes should form a more rigorous analytical basis for more effective planning, trouble-shooting and management

Integrated Service Delivery

- All components for effective treatment (diagnosis, drugs, ancillary medicines) should be employed in an effectively integrated and comprehensive service delivery approach

Donor Coordination and Transparency

- Ministries of Health should be empowered to coordinate donor inputs, to facilitate most efficient and effective use of resources
