

**SECOND MEETING OF THE RBM PARTNERSHIP WORKING GROUP
ON INSECTICIDE-TREATED NETS (WIN)
1 - 3 February 2005, Safari Park Hotel, Nairobi, Kenya.**

PROVISIONAL OBJECTIVES

1. Review progress and products of first year of the WIN
2. Gain consensus and finalize the revised document entitled "Scaling-up insecticide-treated netting programmes in Africa: A Strategic Framework for Coordinated National Action".
2. Update and support action on key issues of the Johannesburg Business meeting on long lasting insecticidal nets.
3. Review framework on monitoring and evaluation for insecticide-treated ITN programmes and projects within the context of scaling-up.
4. Review and discuss lessons learnt from the response of RBM Subregional Networks to identified country needs for going to scale with ITNs, including progress on enabling environments, e.g. taxation.
5. Outline emerging implementation research questions for large-scale ITN implementation.
6. Set work plan and budget for 2005.

PROVISIONAL EXPECTED OUTCOMES

1. Document entitled "Scaling-up insecticide-treated netting programmes in Africa: A Strategic Framework for Coordinated National Action" finalized.
2. Key issues from the Johannesburg Business meeting on long lasting insecticidal nets reviewed and partnership action plan supported.
3. Key ITN-related issues for monitoring and evaluation and for enabling environments for scaling-up reviewed and partnership action agreed.
4. Improved linkages with Subregional Networks to assist response to country needs for going to scale with ITNs.
5. Consensus on priority WIN implementation research issues established and consortium funding strategy explored.
6. Workplan and budget for 2005 developed.
